PERSONAL PROFILE

With years of managerial experience in retail, I am transitioning into the tech industry as a junior software developer, unafraid to start from an entry-level position and build up my career again. My passion for technology is fuelled by a desire to explore new avenues of innovation and contribute to the field. I bring a proven track record of leadership, team management, and operational excellence to this new venture. Eager to embrace new challenges, I am excited about the potential of technology to revolutionize industries and drive positive change.
