Institute of Archeology, University of Warsaw,
Warsaw, Poland

2023 - Present

Code Institute

Full Stack Developer Course
Dublin, Ireland

< ABOUT ME > </>

Throughout my entire life, I've been one of the rare people who has no problem with adapting to change. By learning to accept that change is a natural occurrence in life like in the workspace, I quickly adapt and focus on what could be made possible. I focus on the tasks and responsibilities I have control over, and what can I achieve today, and focus on the problem or project one piece at a time. I make the most of what I have and am optimistic about the future.
